

VALUATION ADVISORY

RURAL, NATURAL RESOURCE & ENVIRONMENTAL VALUATION SERVICES

Kidder Mathews' multi-disciplinary team of real estate experts offers a broad spectrum of services for rural properties, the environment, and natural resources. Our team provides valuation and consulting services to assist clients in executing strategies in how to use, buy or sell, hold or lease properties.

KIDDER MATHEWS ADVANTAGE

With increased market scrutiny, it is imperative that valuations and consulting assignments are performed diligently and thoroughly documented to ensure rational and supportable conclusions.

Collectively, our real estate team offers high level experience of rural, natural resource, and environmental practices. Our team has worked in more than twenty states and multiple foreign countries. Through years of education and training, along with strategic alliances developed over decades, Kidder Mathews has the capabilities to address a broad spectrum of properties and assist our institutional and non-institutional clientele in their decision making.
